Vision Doeve Brokers

Former ketch rigged fishing vessel from Norway of the Colin Archer type. The sellers have decided to renovate the ship after sailing many trips and living on board. For example, several wooden parts have already been replaced and there are two new masts available that have been sawn to a taper but are not ready to use yet. Four years ago she was re-caulked where necessary. A lot of work has already been done but it is far from finished. There is still a lot to do and this is shown in the asking price. Unfortunately, due to circumstances, the sellers are unable to complete the project. If you are the person who is skilled in woodworking and you do not shy away from a challenge, then this may be the boat for you.
